

**SPECIAL 2023
AWNING
PROMOTION**

In celebration of the February grand opening of our new SunPro Retractable Awning Manufacturing Facility, the SunPro team announces a SunPro Special 2023 Awning Promotion for all SunPro Dealers! With SunPro's rapid growth, we have moved all of our awning manufacturing over to a 35,000 sf dedicated facility. This will allow continued expansion of our awning business for years to come.

OFFER

For every awning ordered by a SunPro Dealer from **NOW through October 31st**, SunPro will provide a **free Wind Sensor***. Additionally, SunPro will offer the Front Drop Screen at **50% off of our normal dealer price***. This promotion allows our dealers to discount or include these key add-on accessories at no additional cost, or at a reduced cost to the customer.

* Wind Sensor or Front Drop Screen must be chosen on the configurator at time of awning order in order to receive promotion. (Effective dates of promotion 2/20/23–10/31/23)

When you combine this Special Offer with our other incredible SunPro Awning Features, you can offer your customers the absolute BEST VALUE in the Retractable Awning Industry!

- ✔ Choice of 30 in-stock **Sunbrella® Fabrics** included at no additional charge. The top awning fabric in the world. (See our *Why Sunbrella®? fact sheet*). The SunPro 30 Sunbrella® Colors are the best selling/ most popular colors in the awning industry! Compared to other manufacturers who upcharge for Sunbrella®, why limit your customer's fabric choices with inferior fabrics and outdated selections? *We are upgrading those SunPro 30 in-stock Sunbrella® fabric colors this year with 8 new incredible choices. More to follow...* Use the special SunPro version of Sunbrella's® Shade Studio to help your customer visualize what an awning made with Sunbrella® fabric could look like on their home.
<https://shadestudio.sunbrella.com/sunpro/>

- ✔ SunPro's highly skilled fabric department takes the **Sunbrella® Fabric** and creates the best awning cover in the industry. We start the panels in the center and work out the seams so they're evenly spaced. All outside edges are double stitched with **Tenara®** thread for years of durability. Compared to companies that pre-build awnings and cut down fabrics to match the size after the fact, the difference in quality and aesthetics is substantial!

- ✓ All SunPro Awnings are **Custom Made** and individually manufactured to the inch (from 9'6" wide up to 40' wide) *specifically for your customer*. Completely manufactured in Bradenton Florida. **MADE IN THE USA!** No cut down charges—made specifically for your customer.
- ✓ Wind Sensor Included at no additional charge. **\$300.00 VALUE** to the consumer
- ✓ LED (dimnable) lights Built-in to the Awning Arms at no additional charge. **\$400.00 VALUE** to the consumer.
- ✓ Front Drop Screen at 50% Off. **\$300.00 VALUE** to the consumer.
- ✓ Motorized Operation (with manual override) on all SunPro Awnings, with one remote control to extend or retract your awning + control the LED dimmable Lights.
- ✓ **EZ Adjustable Pitch** allows the consumer to adjust the angle of their awning quickly and with little effort (and no dealer service calls) at no additional charge.
- ✓ All SunPro Awnings include a corrosion free and powder-coated aluminum cassette housing at no additional charge to protect the fabric. Other manufacturers charge for a hood (carport) to house the fabric as an expensive add on. Our cassette is more like a garage than a carport to protect the fabric.

Additionally, all of these features come with the SunPro Advantage for choosing us as your manufacturer:

#1 IN DEALER SATISFACTION	#1 IN TURN AROUND TIME	#1 IN QUALITY	#1 IN TRANSPORTATION	#1 IN INNOVATION
<p>Our dealers stay with us for the long term. We have virtually zero dealer turnover. We know we have to earn your business everyday and we work hard at doing just that.</p>	<p>Fastest turnaround time in the industry. Period. No one comes close. Awnings are typically custom made in under a week.</p>	<p>We continue to invest heavily in training, adding new equipment, improving our processes and focusing on quality every day. All Awnings are completely assembled and tested prior to shipment. Even the Wind Sensor is programmed. Cuts down on your installation time and expense.</p>	<p>We hand-deliver over 90% of our dealers with company trucks and company employees at a minimal price. All awnings up to 40' wide are delivered as one unit. No assembly at the job site. Essentially no shipping damage!</p>	<p>We always have new products in the pipeline and we are committed to leading the industry in products that our dealers need to dominate their markets. We are continually gathering dealer/ installer feedback and improving our products and processes.</p>

SunPro was ranked as one of **AMERICA'S FASTEST-GROWING PRIVATE COMPANIES**

This promotion will be reflected on your order configurator at <https://app.sunproproducts.com> on Monday morning 2/20/23.
